

Congratulations, SHARE!

Recovery International (RI) is happy to celebrate this important anniversary milestone with SHARE! Congratulations to an organization that provides so much support for those in the Los Angeles community - but their reach also extends beyond that geographic boundary.

RI hosts 170 peer-led, self-help meetings per week, and SHARE! is a valuable partner in this effort, supporting 10 of those meetings which are held via their Zoom platform. RI meeting participants come from all parts of the US and Canada and have also learned about what the SHARE! organization has to offer.

Participants in SHARE! peer trainings not only learn about the RI concepts and Method, but also participate in Recovery International meetings as part of their requirement. RI leaders are happy to welcome trainees to their meetings, even if they are only observing. In addition, RI has had the pleasure to present at SHARE! hosted conferences and educate people about how beneficial self-help can be while you're waiting for an appointment with a professional or in-between visits.

Rarely do organizations find such mutually beneficial partners. Congratulations to Ruth Hollman and Libby Hartigan, for building such a valuable community asset, and also to all the amazing staff and volunteers.
